# Committed to *compassionate, state-of-the-art care*

Premier offers our patients innovative, state-of-the-art breast care. Our team is committed to remaining at the forefront of the latest technological advances in breast cancer diagnosis and treatment. Some of our innovative services include breast-conserving surgery; digital mammography, which shortens exam times and increases patient comfort; and two options for short-duration, breast-conserving radiation therapy, the SenoRx Contura™ Multi-Lumen Balloon Catheter and the MammoSite® 5-Day Targeted Radiation Therapy System.

We offer our patients individualized options for treatment and partner with them to chart the best possible course of care. Our experience with referring physicians and specialists in the region makes Premier the best possible extension of ongoing care.

We are inspired by our patients, committed to research and determined to help, which is why thousands of women in East Tennessee rely on us for their breast health needs.

## *Multidisciplinary Approach*

At Premier, we utilize a team approach for breast treatment. Our specialty team of experts conferences weekly to determine the best and most comprehensive ongoing plan for each patient's care.

### *Specialty Team*

Board-certified surgeons  
Radiologists  
Medical oncologists  
Radiation therapists  
Pathologists  
Reconstructive surgeons  
Genetic counselors

This multidisciplinary method of care affords us the opportunity to partner with well-respected health care centers:

- Thompson Cancer Survival Center,
- Parkwest Comprehensive Breast Center, and
- Tennova Women's Center.

## *Compassionate Care*

Premier is dedicated to timely diagnosis and comprehensive treatment for all breast problems. Our women's health team empowers patients and their families to take an active role in the decisions regarding cancer treatment and management.
